*\*For judging purposes, please **do not** include your name on this or attached pages that include your answers to the following questions.*

1. Please list your community and/or school activities and work experiences. Use additional paper if more space is needed.

2. Respond to the prompt below and attach your double-spaced response.  
**(150-300 words)**

Managing money doesn't always come with a manual. Most of us learn by doing, adjusting, and figuring things out along the way.

**Prompt:**

Tell us about a time you had to make an important financial decision. This could involve earning, saving, spending, or budgeting your own money or helping someone else manage theirs.

What went into your decision, and what did you learn from the outcome? How has this experience influenced the way you think about money, independence, and your financial future? As a member of your community, how do you plan to use those lessons to build stability for yourself and positively impact others?

We're not looking for perfection. We're looking for growth, awareness, and real-life experience.
